GREAT BATTLE IN PROGRESS

NUNS DIE SAVING CHILDREN

FIVE SISTERS KILLED IN BLAZE

Sacrifice Lives While Rescuing Charges From San Antonio Fire

Deeds of Heroism Mark Destruction of Orphanage; Mother Superior Victim

SAN ANTONIO, Texas, Oct. 30.—Five Sisters of Charity sacrificed their lives in an attempt to save 87 children in a fire that destroyed St. John's Orphanage today. They succeeded in rescuing all but two children before they were trapped by flames. Two Sisters escaped.

The dead are:

MOTHER MARY OF THE CROSS, who was Mother Superior of the asylum. She was Mary Rosiller, native of Wexford, Ireland.

MOTHER FRANCIS PASTEUR, native of France.

SISTER PETER CLAVER STEVIN, teacher in San Fernando school, native of Dublin, Ireland.

SISTER LEONARDIA NOLAN, teacher in San Fernando school, native of Dublin, Ireland.

SISTER MONICA MONTEZ, native of Mexico.

CHARLES MATHLOW, orphan, aged 3 years.

The injured are:

MISS A. DEEMPTTE, an employee, native of Germany.

MISS STANDISH, an employee.

SISTER MARY KOSTKA FARRELL, native of Kildara, Ireland.

SCORES ARE TRAPPED.

The fire's origin is not yet known. Eighty-seven orphan children, ranging in age from 2 to 12 years, and nine nuns were in the building when the flames broke out. Marshaling their charges to hurry them to safety the Sisters of Charity remained in the blazing orphanage until the building began to crumble and fall.

The death of the mother superior, Mary of the Cross, was the sequel to a demonstration of remarkable courage. She returned to the burning dormitory where she heard the cry of a child who had been overlooked in the hurry and excitement. A few moments later she appeared at a window in the front of the building with the babe in her arms.

FAIL TO SAVE HER.

Fire Chief Wright attempted to save her but he failed. A ladder was placed against the unsound wall and the chief scaled it, but before he reached her the mother superior, with the child, fell back into the flames. The three nuns who escaped helped in taking the children from the blazing structure. They were marching them across the yard when the walls began to fall.

Sister Kostka in jumping from the fourth floor window to reach a life net evidently lost her balance. Her body struck the railing on the second floor and she was killed.

RETURN IS FATAL.

Sister Monica Montez lost her life by jumping. After the children had been plotted to the fire escape on the west side of the blazing building she returned to take a last look in the dormitory.

Her escape was cut off but she made her way to the east side, where firemen stood below with the net spread. She leaped but missed the net. Death was instantaneous.

Mother Francis Pasteur and Sisters Peter Claver Stevin and Leonardia Nolan were unable to escape from the burning. They perished in the flames.

burned to death another is missing and it is feared it, too, perished.

BECKER SENTENCED TO DIE; EXECUTION WILL BE DELAYED

CHARLES BECKER.

APPEAL NOTICE TO BE FILED SOON

N. Y. Police Lieutenant Condemned to Death in Chair

NEW YORK, Oct. 30.—Charles Becker, the former police lieutenant, convicted of procuring the murder of the gambler, Herman Rosenthal, was sentenced today to die in the electric chair at Sing Sing during the week of December 9. The sentence was pronounced by Justice Goff.

Becker's execution will be stayed, however, by a notice of appeal from the verdict of the jury, soon to be filed by his counsel, which may take a year to determine.

He was at once delivered into the custody of Sheriff Harburger, who left with him to take a train to Sing Sing prison, where the convicted man will be confined until his fate is determined.

TALKS WITH WIFE.

Mrs. Becker had a short talk with Becker in the sheriff's quarters at the criminal courts building before Becker was taken before the court.

With Becker were his brothers, John and Father Curry of St. James church.

Mrs. Becker and her brothers-in-law pleaded with the sheriff to delay Becker's removal to Sing Sing. The sheriff was obdurate and announced that he would take Becker away today.

J. F. McIntyre, Becker's chief counsel, who suffered a nervous collapse after the close of the trial, was unfriendly to the move. He said that if he would take Becker away today, he would take Becker away today.

EXPOSES S. F. VOTING FRAUD

Registrar Discovers Colonization, Believed to Be in Interest of Annexation

List of Those Whose Votes Will Be Challenged Totals 20,000

Has San Francisco been colonized in the interests of the consolidation amendment?

What other interest in the coming election could be responsible for the 20,000 unverified names found on the great register across the bay?

Has the regime of Kelly and Crimmins been invoked again to corner the floating vote against Oakland and her sisterhood?

These are some of the questions that are being asked on all sides since Registrar J. Harry Zemansky of San Francisco announced that one out of every seven voters whose names appear on the great register are under suspicion. Zemansky's deputies have not been able to locate thousands of people at the addresses that have been given. Most of the names appear to be clearly fictitious. They are from lodging houses located in the "restricted district."

100 IN LODGING HOUSE?

In one instance 100 names were found registered from a lodging house which could not possibly accommodate more than forty people.

It is an open secret that the "barrel" has been tapped in San Francisco and is open in the interests of the sixth amendment. The word has been passed out down the line and through the medium of that mysterious underground system by which the tenderloin gets in touch with such things, the votes of the harlot and the saloon are being corralled in behalf of consolidation. It is with the aid of the rift-rat of the tenderloin that San Francisco hopes to make a showing on the sixth amendment vote.

EXPOSES CONSPIRACY.

Registrar Zemansky has not hesitated to expose the number of illegal registrations. When the men and women under suspicion go to the polls next week they will be challenged and will probably find themselves in serious trouble.

The list of supposed stuffers has been compiled from three sources. These are:

First—Names of people to whom letters have been sent by the registrar, and the letters have been returned by the postoffice department.

Second—Names not found on the list of people living at the lodging houses on September 3.

Third—Names run down by officers of the registration department and found to be fictitious.

BEGINS PURGING OF REGISTER.

The work of purging the register was begun by the registrar, J. Harry Zemansky, immediately on the opening of registration. Under the state law the proprietor of every lodging house

BATTLES FOUGHT IN MOUNTAINOUS COUNTRY

Nearly the whole of the Balkan peninsula is a mass of mountains, from Montenegro on the west to where the hills of Southern Bulgaria dip down toward the Black sea. Only a very small area is flat and level land. There is a fairly large district of what is known to geologists as "quaternary" to the west of Constantinople, and there are other more or less flat areas around the lower parts of Karoun and the Vardar river, which flow southward into the Aegean sea. The rest is all broken hill and valley, with mountains running up to 8000 feet in Rila Dagh and other peaks. The geological map of the peninsula shows at once that the central mass of mountains is hard igneous rock, while on either side of this mass are two streams of oolitic limestone mountains, splitting off, as it were, from Belgrade to form this Balkan range proper on the one hand and the Montenegro mountains and the Pinus mountains of Greece on the other.

Turkey to Sue for Peace in Event of Decisive Battle at Adrianople

Ottoman Troops Repulse Bulgarians at Tcherkesskeeti, Inflicting Loss

LONDON, Oct. 30.—A big battle, perhaps the decisive one of the war, is proceeding somewhere to the east of the line from Constantinople to Adrianople, between the Turkish and Bulgarian armies and heavy fighting also is taking place around Adrianople itself.

Beyond the fact that a clash has come, however, the general staffs of the Turkish and Bulgarian armies are keeping the outside world ignorant as to how things are going, as no authentic news has come through from the action, except the dispatch from Nazim Pasha, the Turkish commander-in-chief, saying:

"The position is favorable to the Turks."

While admitting that they have to depend on mere rumors and suppositions, military critics here are inclined to believe that the Turkish army is at last ready to take the offensive and has a chance of retrieving itself.

BULGARIANS CHECKED.

The Bulgarian troops have obviously suffered a check in the vicinity of Adrianople, as dispatches from Sofia report the arrival there of many wounded from the front and it is announced that Bulgarian plans for storming the great fortress have been delayed until reinforcements arrive.

The Turkish commander's plan is not clear, but it is believed he will attempt to retrieve Adrianople and its garrison of 80,000 men while at the same time holding the Bulgarians on his left flank. The rumors that Bulgarian troops had reached the sea are unconfirmed.

TO MEET SERBIANS.

Zeeckl Pasha is gathering the remnants of his army at Monastir to meet the advancing Serbians and the allied Bulgarian column. It is thought he may make another Pleven, Monastir and prepare himself there for a long siege.

The failure of the ex-Balkan Abdul Hamid to arrive at Constantinople, while he was being removed from Saloniki, seems to confirm the report that the railroad between these two cities also has been interrupted.

From Belgrade come reports that the Serbian victory over the Turks at Yelos was accomplished by the cavalry, which divided the Turkish forces while the Serbian artillery drove them from their positions.

Turkish troops defeated by the Serbians and Montenegreans in the district of Novipazar are arriving in hundreds in Bosnia, having crossed the frontier.

Colonel Charles A. Court Repton, one of the best informed military writers in an article, after a silence since October 25, says that the military situation in the Balkans has been so helplessly confused that it has been useless to attempt any appreciation of it.

BATTLE IN PROGRESS.

CONSTANTINOPLE, Oct. 30, 1:55 p. m.—The Turkish commander-in-chief, Nazim Pasha, telegraphs that a big battle has been in progress since this morning. The troops engaged on both sides number 150,000. Nazim Pasha says the position of the Ottoman forces is favorable.

SHERMAN'S END QUESTION OF FEW HOURS

Vice-President Awakes, Delirious; Condition Is Critical

ATICA, N. Y., Oct. 30.—Vice-President Sherman's death is a question of only a few hours, said Dr. Peck when he left the Sherman residence at noon today. The Vice-President was delirious when he awoke for a few minutes early this morning. He then relapsed into a heavy sleep. It is not believed Mr. Sherman will survive the next 24 hours.

BATTLE IN PROGRESS THAT MAY DECIDE WAR

Troops on Both Sides Number 150,000; Turkey May Seek Peace

(Continued From Page 1)

Turkish army repulsed the Bulgarian troops yesterday, inflicting severe loss on them at Tcherkeskeet, on the Tchoulu river and on the railroad midway between Constantinople and Adrianople.

ENROUTE 300 TURKS

CONSTANTINOPLE, Oct. 30.—By wireless to Kustendie Roumania. Three hundred Turkish officers and men have been executed in connection with the panic among the Turkish troops at the taking of Kirk-Kilis by the Bulgarians.

ALL BADLY KILLED

According to refugees from Kirk-Kilis the city there were three companies of Turkish troops, one of which was killed and badly wounded, the remainder of the troops at the time of the fighting had been without rations for 48 hours.

A night attack on the Bulgarian advance guard was ordered by the Turkish commander, but the energetic defense offered by the Bulgarians dispersed the Turkish troops and a panic set in. The troops dispersed, abandoning their flight their guns, rifles and ammunition. Mahomed Mehmed Pasha tried to stem the panic by shooting several fleeing soldiers with his revolver. Prince Aziz Pasha joined in the fight.

WILL SUE FOR PEACE

LONDON, Oct. 30.—In the event of a decisive battle at Adrianople Turkey is sure to sue for peace, according to George H. Moses, former United States minister to Greece. In an interview today he said:

"The terms of peace will be dictated absolutely by the Balkan states. Turkey has no chance of winning out. The terms will agree with those laid down in the note sent by the Balkan nations to the port before the declaration of war with the important exceptions that the Balkan nations will have all the territory conquered by them and will exercise suzerainty over the other Christian districts of European Turkey."

The Balkan allies are probably making every effort to capture all the Turkish provinces of Macedonia and Albania so that they may be in a position to enforce their demands for annexations of eight districts.

PURSUED TURKISH TROOPS

WASHINGTON, Oct. 30.—Cables from the Greek foreign office to the Greek legation today announced that the right wing of the Greek army yesterday occupied Katerina and was in pursuit of the Turkish forces. The left wing last night occupied Kerkalar.

ARRIVE AT UNDERSTANDING

VIENNA, Oct. 30.—The Austrian and Russian governments have arrived at an understanding on the Balkan question, according to the Neue Presse. An official announcement on the subject is expected shortly to explain the nature of the accord.

JUNCTION EFFECTED

RIEKA, Montenegro, Oct. 30.—The central column of Montenegrin troops commanded by Crown Prince Danilo effected today a junction with the

Southern Montenegrin army under General Martinovitch, east of Scutari.

VILLAGES PILLAGED

ATHENS, Oct. 30.—The Bashibazouks (Turkish irregulars) have pillaged and burned six villages in the Jannina district. They killed many men, women and children. The Greek arch priest at Jannina has been murdered.

BULGARS DEFEATED

LONDON, Oct. 30.—The Bulgarian army was defeated by the Turks at Vasil Pasha and Saraj. According to an official dispatch received by the Ottoman embassy here, the Turkish loss totaled 200 killed and wounded.

PREDICT GREAT BATTLE

CHICAGO, Oct. 30.—Cable dispatches to the Chicago Daily News from Constantinople on the one hand and from Sofia on the other, agree that the success of the allies against Turkey thus far has been only a series of steps leading up to what is expected to be a terrific battle between Adrianople and Constantinople, in which the Turks will make their master effort to save their capital and the ultimate victory.

Turkish ministers of war declare that the unpreparedness of Turkey has been responsible for her losses and the officials in Bulgaria likewise believe the Turks are pursuing a purposeful policy of retreat until the time when they shall believe their aggregate forces joined to the army as it falls back shall be great enough to cope with the victorious allies.

SERVIANS ON WAY HOME

LOS ANGELES, Oct. 30.—Fifty Servians left this city last night in a special train for New York, from which port they intended to sail for their native land to enlist in the war against Turkey.

Their departure was preceded by a parade of the 1500 Servians in Los Angeles through the principal streets of the city.

It was said at Servian headquarters here that \$10,000 had been raised in Los Angeles to aid in the recruiting of soldiers to fight the Turks.

OCCUPY TOWN

LONDON, Oct. 30.—The Greeks today occupied the Turkish town of Yver without resistance, according to a news agency dispatch from Athens. The Greek army is now within fifty miles of Saloniki and it is believed the railroad from Yver to Saloniki is still intact.

Renee Ser who was military attaché at Vienna and whose wife formerly was Josephine Kaiman of St. Paul, has been appointed general of division in the Turkish army, according to a dispatch from Constantinople.

RAILROAD IS CUT

KOSANI, Turkey, Oct. 30.—The Greek army under Crown Prince Constantine, after occupying the Turkish town of Yver, cut the railroad communicating with Monastir.

and hotel is required to submit a list of residents in his place of business on September 2. These lists have been carefully checked with the list of registered voters and wherever a discrepancy exists the name of the suspect has been transferred to the challenge list. It is taken for granted by the registration office that if a mailman cannot find a voter at his address there is reason for suspicion and every one whose mail has been returned to the registration office will have to explain himself at the polls. The police department also has detailed a man to assist in every suspected case other than those arising from these sources, and a good many people will find themselves in trouble if they try to vote.

The total registration being about 184,000 and the list of suspects running to 20,000, the proportion of suspects is less than one to every seven registered voters.

The challenge list will be completed by Saturday night.

NUNS GIVE LIVES TO SAVE CHILDREN

Six Sisters of Charity Are the Victims of Fire in San Antonio.

(Continued From Page 1)

Right Rev. Bishop J. W. Shaw carried out several children, some of whom were mere babies and unable to help themselves.

Father Kame, the chancellor, and Father Duffy, chaplain, repeatedly rushed into the building to return with some child found groping helplessly about in the smoke.

When the fire chief and the first alarm reached the orphanage, the fire had spread throughout the entire structure. The roof had crumbled.

The dead nuns belonged to the Sisters of Charity of the Incarnate Word.

out no hope, but says it is impossible to determine when the end will come. At 10:10 a. m. Vice-President Sherman's pulse was 100, respiration 25, temperature practically normal. Dr. Peck said that Mr. Sherman's kidneys had refused to act since 2 o'clock yesterday and that most of the time since his patient had been in a comatose condition. For a few minutes early today he was awake, but he was delirious. He soon dropped off to sleep and has remained oblivious to the world since. He has not been rational since Monday night.

Dr. Peck expects the end during this afternoon or tonight.

Dr. Peck stated at 3:15 p. m. that he did not think death would come before the expiration of from eight to 12 hours.

When Dr. Peck left Mr. Sherman's house at 4:30 o'clock he stated that his patient was in a complete comatose condition. He then expressed the opinion that Mr. Sherman would not die before midnight and said he might live until tomorrow.

A message was received here this afternoon by Mrs. Sherman from President Taft as follows:

"Mrs. Taft and I have been greatly shocked and distressed to hear of the present illness of the vice president and I send you this message of sympathy with the earnest hope that the symptoms may become more favorable and that your dear husband may be restored to his friends and this country."

"ORIGINAL" BULL MOOSE, OAKLAND MAN, JAILED

WASHINGTON, Oct. 30.—It came to town to get the explanation made by a man who described himself as Ira Otis Geiger of Oakland, Cal., and who was arrested today charged with insanity on the complaint of a local physician.

Geiger's pockets were filled with circulars describing the "Original Bull Moose" and platform. The "Original Bull Moose" was a man who was the platform was a scheme for transporting all the negroes to a country of their own. Papers indicated that Geiger was a member of the Sign Painters' Union of San Francisco.

Ira Otis Geiger was arrested in Oakland Monday at 11 o'clock and charged with three stealing. He was released on probation and has been missing from Oakland for one year. He is wanted here for violating his parole.

BELL MAKES HARD FIGHT FOR LIFE

Wounded Ward Politician in a Bad Way as Result of Shooting.

SAN FRANCISCO, Oct. 30.—William Bell, familiarly known as "Bill" Bell, a ward politician well known in the State and a veteran member of the old ward in administrative circles, is fighting for his life at the Central Emergency Hospital with two bullet wounds in his body. His tremendous vitality, however, is serving him in good stead, and the physicians say that he has a chance to recover and appear in court against his enemy, Carl Waters, a carpenter who took three shots at him in the saloon at 2427 California street, last night. The first bullet went wild, but the second entered the abdomen and the third found lodgment in Bell's right lung.

The cause of the shooting was a feud, which began October 10, when Walter got into an altercation with Patrick Bannon, a brother of Deputy Sheriff Bannon, in a room at 80 Norfolk street. Bell endeavored to play the part of a peacemaker and separated the pair when they came to blows, but Walter asserted that he had sided with Bannon and determined to "beat him."

Last night Bell was taken by surprise as he entered the barroom, where Walter was already drinking. "Are you going to treat Carl," he asked.

"You bet, I am. I am going to treat you to some of this," was the answer, as he pulled forth his pistol and commenced firing.

Walter was captured at the residence of his attorney, Frank T. Barrie, 174 Randall street, by Detective David Murphy, and he is being held in the city prison, pending the result of his victim's injuries. Life was quite cool about the whole affair, and spoke to several friends on his way to Barrie's house, saying:

He was positively identified at the hospital at a late hour last night by the politician, by pointing him out as the man who shot. Four years ago Walter was arrested for shooting a porter named Tony Leiger of 442 Shotwell street, but was not convicted.

COURT MAKES SEARCH FOR MISSING GUARDIAN

San Francisco, Oct. 30.—The court today made a search for the guardian of Mrs. James Deane, formerly Mrs. M. V. Burrows, who was legal guardian of the late Mattie A. Quinn. She is wanted for the purpose of rendering an accounting of her administration of the estate of that woman, who was found with her hands cut off at the wrist. When the body was first obtained it was believed that the estate of Miss Quinn would amount to \$100,000 (later developed that it is \$100,000).

NEAL TO ATTEND WEDDING TONIGHT

Confessed Embezzler Is Taken From County Jail to See Daughter Married.

Joseph H. Neal, confessed embezzler of Pleasanton town funds, was taken before Justice of the Peace P. C. Quinn of Pleasanton township this morning for arraignment, but owing to the fact that experts on his books have been unable through sickness to complete the task the case was continued until November 13.

In charge of Deputy Sheriff Eugene Stachler Neal was removed from the county jail this morning. He will be permitted to attend the wedding of his daughter, Miss Cora Neal, to John Viera, which takes place this evening.

Until the time of his confinement in the county jail Neal had been unusually devoted to her father, but the girl's devotion to her father caused him to relent and he gave his permission for the match several days ago, with the result that a license was promptly obtained. His permission was necessary for the reason that Miss Neal was not 13 years old.

When the date of the wedding was announced Neal asked permission from Sheriff Frank Barnett to attend the ceremony and his request was granted.

able to be in court today. His condition is serious, but not critical.

SMILE IS FAINT

When Becker was brought into court he walked slowly to the bar and catching the eye of acquaintances among the newspapermen nodded to them with a faint smile.

"Charles Becker, have you any legal cause to show why judgment of death should not be pronounced against you?" asked the clerk.

Becker opened his mouth as if to speak, but before he could reply John W. Hart, his attorney of record, rose to make the usual motions to set aside the verdict and to arrest judgment.

Justice Goff denied the motions and then pronounced the sentence.

SHOWS NO EMOTION

Becker heard himself condemned without any show of emotion other than the closing of his eyes and the compression of his lips.

Mrs. Becker was not in the courtroom proper, but was waiting in an anteroom to accompany him to Ossining, where she purposes to take up her residence during his confinement.

CHAUVEUR CONFESSES

William Sheiro, chauffeur of the automobile used by the assassins of Herman Rosenthal on the night of July 18, has made a confession to District Attorney Whitman which shatters the latest contention of Police Lieutenant Becker's lawyers that Harry Vallon fired the fatal shot.

The chauffeur positively identified "Gyp Frank," "Lefty Louie," "Dag Frank" and "Whitey" Lewis as having been his only passengers to the Hotel Metropole on the night of the murder.

The confession constitutes absolute corroboration for the testimony of Rose, Webber, Vallon and Schepps as to the movements of the "murder car," and is thought to be the link in the chain of evidence necessary to convict the four gunmen.

DAVIDSON PLEADS GUILTY

"Red Phil" Davidson, slayer of "Big Jack" Zelig, the gang leader, will escape the electric chair. At the opening of his trial today he withdrew his former plea of not guilty and entered a plea of guilty to second degree murder. The penalty may be life imprisonment.

A jury was obtained in record time. Justice Goff then called to the stand physicians who had examined the defendant and on their testimony that he was weak mentally the plea of second degree murder was accepted. Sentence was deferred.

NEW YORK, Oct. 30.—Gov. Later in the day the Governor was to arrange his itinerary for election day. His first speech after leaving New York at midnight tonight will be delivered in Ogdensburg, N. Y., tomorrow. STOMACH UPSET? SOUR? 'CASCARETS'

Sluggish Bowels Cause Gases,
Sourness and Food
Fermentation.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. "It isn't your stomach's fault. Your stomach is as good as any."

Try Cascarets—they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. They work your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

SUICIDE'S VICTIM TO SURVIVE WOUND

Mrs. Josephine de Mello Will
Recover, Say the
Physicians.

Mrs. Josephine de Mello, who was shot by her husband, Frank de Mello, yesterday morning just before the husband blew out his brains, will probably recover from the wound, according to Dr. A. H. Dodge, who is attending her.

The wounded woman is at the Acropolis sanitarium, where she was taken immediately after the shooting. Physicians this afternoon removed the bullet from Mrs. de Mello's back, where it had lodged in the muscles of the shoulder, narrowly missing the lung. Unless blood poisoning develops there is no danger from the wound.

The body of the suicide is still at the morgue awaiting an inquest by the coroner.

PERSONAL PROPERTY REFUND IS MADE

County Auditor E. F. Garrison reports that there is \$383.24 to be refunded on personal property unsecured by real estate for the year 1912. He is now busy sending out postal cards to all taxpayers to whom this refund is due, and will receive notice in due course of time. There are several thousand cards to be addressed.

The taxpayers should beware of persons who are using around and having these refund postal cards sent to them. This is absolutely unnecessary and many conflicting stories are being told to the taxpayers in order to get them to assign away their right to this fund.

PRESIDENT OF CHINESE ASSEMBLY ASSASSINATED

CHICAGO, Oct. 30.—Cable dispatches to the Chicago Daily News from Peking, China, say the Mohammedans have assassinated Li Ching Chang, president of the Kansu Provincial assembly, because he opposed making Maan Liang the Mohammedan governor of the province. The dispatches add that the followers of the prophet Mohammed are now in control of the province and are planning to march on Shensi and Szechuan provinces.

ALWAYS CONQUERS RHEUMATISM

Thousands of persons have been rescued from the tortures of Rheumatism and restored to perfect health by the use of S. S. S. So uniform are the good results from its use that we do not hesitate to say S. S. S. always conquers Rheumatism if given a fair trial. You can never cure this deep-seated disease with external treatment, such as liniments, plasters, blisters, etc. These may furnish temporary relief but they do not reach the blood where the real cause is located. Rheumatism is rooted and grounded in the blood and must be driven from its stronghold there before permanent relief can be had. S. S. S. conquers Rheumatism by driving from the circulation the excess accumulation of uric acid which is responsible for the disease. S. S. S. strengthens and invigorates the blood so that instead of a weak, sour fluid, causing pain and agony throughout the system, it becomes a nourishing stream furnishing health to every portion of the body and relieving every symptom of Rheumatism. If you do not conquer Rheumatism it will conquer you. S. S. S. is the one remedy you can depend upon for good effects. Book on Rheumatism and medical advice free. NEW VESSEL FOR BIG GRAIN FLEET

French Ship Ernest Reyer at
Long Wharf Discharging
Cargo.

Movement among vessels of the grain fleet has begun in earnest. The latest craft to be enrolled in the service from this port is the big French ship Ernest Reyer, which is at present at Long Wharf discharging cargo. The big Frenchman has been chartered by Straus & Co. and will enter that concern's service with the conclusion of her local work. The windjammer will load barley for the United Kingdom. The Reyer arrived here this morning after a 14-day passage from Antwerp in charge of Captain Roudot and is discharging a 2500-ton cargo consisting of rye, pig iron and sand.

After years of service under the name of Lottie Carson, the three-masted schooner Lottie Carson, one of the first lumber schooners on the coast, will no longer sail under that name, its present owners deciding to re-baptize the vessel. The Lottie is at present at the Pacific shipyard being equipped with gas engines for propelling power, which will, it is planned, change it over the water at seven-knot speed. In addition to its engine installation, the former windjammer is being fitted out with powerful hoists. With the completion of its local work the Lottie will operate on the Mexican coast as a tugboat.

The steamer Navajo, sister ship of the steamer Camino, the latter craft which is at present on the local ways of the United Engineering Works undergoing repairs, is at Long Wharf discharging its cargo of ties. Repairs in the Camino are being rushed in order to get the craft ready for sea.

The ship L. J. Morse of the salmon fleet is in its winter quarters yesterday.

Vessels in the inner harbor during the past 24 hours include the steam schooners Alsen & Mahoney, Coaster, Yacometti, Brunswick, Despatch and San Pedro.

DESTROYED BOOK, WITNESS ADMITS

INDIANAPOLIS, Oct. 30.—Leo M. Rappaport, an attorney who received a fee of \$11,000 of the McNamara defense fund raised by the American Federation of Labor, was asked in the "dynamite conspiracy" trial today whether he had destroyed evidence after John J. McNamara had been indicted in Los Angeles.

Rappaport testified that he went to Los Angeles six days after McNamara's arrest in Indianapolis and took with him a check book and a bank book; that he had made a copy of the check book and that on returning to Indianapolis he destroyed the book.

It was the private account of J. J. McNamara, which the government charges, showed disbursements for dynamite in the amount of \$100,000. McNamara was under indictment and that he did it under his instructions. You knew McNamara had confessed?"

Yes, it commonly was reported that McNamara had confessed. It is not known then that either of the McNamaras was indicted.

SAYS HUSBAND HAD MANY AFFINITIES

SAN FRANCISCO, Oct. 30.—Mrs. Leta E. Carnes, a manufacturer's agent of this city, in a divorce action begun this morning, names a half dozen affinities with whom she alleges her husband has been associating, and intimates that not until he brought one of them to her own home did she feel that she could bear it no longer. The crash came last week when she declares that he informed her that he was going to quit and take his son and go to the Argentine Republic or the eastern part of this country. She asks for a portion of his large monthly income and the custody of her second child, a little girl.

J. BEAL SNEAD IS UNDER \$20,000 BOND

AUSTIN, Tex., Oct. 30.—J. Beal Snead, player of Al Boyce Jr., at Amarillo, today was granted bail by the court of criminal appeals under \$20,000 bond. Snead recently was refused bail at a habeas corpus hearing at Amarillo. The lower court held that in disguising himself as a workman and secretly venturing into the state to fight with the law, Snead had shown deliberate intention to kill.

Boyce eloped with Mrs. Snead to Winnipeg, Canada, a year ago. Snead killed Boyce's father in Fort Worth last winter over owning complications.

BOY IS INJURED.

SAN FRANCISCO, Oct. 30.—George Wale, a 17-year-old boy residing at 1428 Ninth avenue, ran into an automobile which he claims was on the wrong side of the street, while he was riding his motorcycle this afternoon, and was seriously injured. Wale received a lacerated wound of the scalp, a broken leg, a broken arm, a broken foot and possible internal injuries.

GEN. DIAZ MUST DIE, IS REPORT

MEXICO CITY, Oct. 30.—That General Felix Diaz and his associates will be executed at Vera Cruz, in accordance with the decree of the court-martial, in spite of the order of the supreme court, is the disquieting rumor that has reached the city. It is said to have been placed in San Juan de Ula prison yesterday.

Colonel Diaz Ordaz, chief lieutenant in the Diaz revolt, who escaped in the confusion on the day of the fighting, was captured last night ten miles from Vera Cruz. The small force of rebels that followed him to the hills is still at large.

STOPPED SENDING WIFE ALLOWANCE

Mrs. Oliver L. Jones Names
One Cause for Divorce
Action.

When Dr. Oliver L. Jones stopped sending his wife, who was in Milan studying music, her regular monthly allowance of \$100 per month, she had to return to Oakland and when she did so, he refused to live with her, according to testimony upon which Mrs. Agnes Elise Jones was awarded an interlocutory decree of divorce by Superior Judge Weston today.

Incompatibility of temperament was the chief cause of the couple's troubles, said Mrs. Jones.

The property interests of the couple were settled out of court and Mrs. Jones was given custody of their minor son. The couple were married here the day before Christmas in 1900. Mrs. Jones said that she had to borrow money with which to come home from Italy, much to her humiliation, as well as being forced to give up her studies.

Although W. S. Parrott claimed to be an artist, his wife, Josephine Parrott, testified in obtaining an interlocutory decree of divorce that he could not make more than \$10 per month for their support. Taken she went to painting china in order to swell the family treasury, with the result that her husband broke the dishes and the stove, as well as threatening, at the same time, that if she did not desist in giving lessons he would settle with her sumptuously.

Mrs. Rose A. Cherry objected to her husband's attitude toward her on certain occasions and particularly when she was trying to tell him something. He told her to "give her tongue a sleigh ride" and that sort of expression did not sound well, she said, and she obtained an interlocutory decree.

An interlocutory decree was awarded Victorine Cambot from Noel Cambot on the grounds of cruelty.

EXPLAINS BIRTH OF HARVESTER TRUST

CHICAGO, Oct. 30.—Attorney Rodney B. Swift, former head of the law and experiment department of the McCormick Harvester Company, gave a detailed account of the organization of the alleged Harvester Combination in 1902 at the hearing of the government's dissolution suit against the International Harvester Company here today. Mr. Swift said early in 1902 he was in New York with Cyrus H. McCormick and met J. P. Morgan, Geo. W. Perkins, Attorney F. L. Stetson, Attorney Cromwell and Mr. Stewart, head of one of the large trust companies. The witness said Stetson assured them the combination could be formed without violating law. Mr. Morgan said he could finance the proposition. Attorney Cromwell said the combination could be legally formed.

In July, 1902, the witness made another visit to New York with Cyrus H. Harold and Stanley McCormick, and after two weeks of conference, the executive committee of the International Harvester Company were decided upon. Geo. W. Perkins represented J. P. Morgan & Co. at these conferences, said Mr. Swift.

It was agreed that Cyrus H. McCormick was to be made president, and Charles Deering chairman of the executive committee. Swift testified that in 1902 the companies organized into the International Harvester Company, sold 55 to 90 per cent of all the harvester machinery sold in the United States.

The witness said that the McCormick Harvester Company was capitalized for \$2,500,000 and in 1900, 1901 and 1902 its profits aggregated \$18,000,000. He said that in the thirteen years prior to the consolidation the company paid dividends aggregating 463 per cent. He said the book value of the company's property in 1900 was \$12,000,000, while in 1902 it had grown to \$50,000,000. This increase, he explained, piled up from the earnings.

STRIKERS ARMED, WITNESS DECLARES

SALEM, Mass., Oct. 30.—That a crowd of strikers, armed with revolvers, received rounds of cartridges from one of their number a few minutes before Anna Lopez was killed in Lawrence last January, and then proceeded to the corner where the woman was shot, was the testimony given today in the trial of Ettore Giovannitti and Caruso.

Daniel A. Minehan, a Lawrence newspaper reporter, said he was standing at Union and Commerce streets on the evening of January 23, just before the Lopez girl fell at Union and Garden streets.

"I saw about forty or fifty men standing under an arc lamp," said Minehan. "I heard several shots fired and saw six or seven of the men with revolvers in their hands. Then I saw one of the men pass cartridges around to the others and they then laid their revolvers." A few minutes later I heard shots fired at that corner."

It was at that time that Anna Lopez fell, Albert G. Warner, a Boston reporter, testified that he saw the shot fired that killed Anna Lopez. The shot, he said, was aimed at Policeman Henon by a man whom he did not know and whom he never saw again.

BATTLE IS BEGUN FOR BIG ESTATE

Charles D. de St. Germain
Seeks to Break
Will.

SAN FRANCISCO, Oct. 30.—After three and a half years of litigation in France, resulting in the triumph of the California heirs of Mrs. Theophile A. de St. Germain, a battle is to be waged in the local courts for the property within this State. Mrs. St. Germain was the widow of a San Francisco restaurant man and died in Paris in 1905, leaving a half million dollars, only \$100,000 of which was property in California. She left two wills, dated respectively August and October, 1907. The first gave half of her property to her son, Charles D. de St. Germain, residing in Paris, and half to the four children of a deceased son, two of whom, George and Eugene de St. Germain, are prominent real estate men of this city.

The October testament left the entire property to Charles D. de St. Germain. The latter filed this will and it was protested by the other heirs, who succeeded in breaking it and of bringing about a distribution under the first legacy. However, in 1908, the California property was given in charge of Public Administrator Flynn and George and Eugene de St. Germain are endeavoring to have this distributed to them in accordance with the first will and the matter taken out of the public administrator's hands.

Once again, Charles D. de St. Germain has decided to fight for the California property under the first will, and this morning in Judge Graham's court a contest was filed. The case was continued for one week.

U. C. NOT IN ROW, AVERS WHEELER

President of State University Denies Part in Text Book Dispute.

SACRAMENTO, Oct. 30.—President Wheeler of the University of California is reported in an evening paper to have written a letter here in answer to the published statement that the university is opening fighting the Shanahan free text book amendment.

Wheeler is quoted as denying in the letter "that there is any such thing as a university attitude in the matter."

Regarding the activity of Mrs. May E. Cheney, appointment secretary of the university, who has been sending out literature appealing to certain women's organizations to fight the amendment, the letter is quoted as saying:

"Mrs. Cheney acted entirely as an individual in allowing her name as chairman of the education committee of the Women's Federated Clubs to be used. She never has conferred with me in any way about the matter, as far as I know."

Wheeler is further quoted:

"There is great difference of opinion about this measure, not on the score of free textbooks so much as on the score of an ex-culpo issue to the constitution of the State Board. The State Board evidently needs reorganization."

"I am quite sure that Mrs. Cheney has spoken quite entirely for herself and for nobody else."

Last night President Wheeler said:

"Mrs. Cheney, of course, represents only herself. I personally repudiate the idea of being a boss or attempting to say how a man shall vote. Mrs. Cheney has personally written to Mr. Shanahan to the effect that she has taken action independently."

LONGS FOR THAT DEAR SCOTLAND

Delivery Wagon Driver Asks for Deportation to Native Heath.

MINNEAPOLIS, Oct. 30.—If James Fenlon were an artist, an actor or an opera singer, he would not have recourse to the courts, but he declares through his attorney that he is simply a delivery wagon driver, and therefore feels that he should be deported and should receive \$3,000 judgment against his employer.

It is the first case in the history of Federal courts in Minnesota where anyone has asked for deportation.

Fenlon, in his complaint filed in the Federal court yesterday against J. C. Wilson, charges violation of the immigration act. The complaint declares that in 1911 Wilson induced Fenlon to migrate from his home in Greenock, Scotland, to the United States, promising that he would give him a job as delivery wagon driver at \$12 a week.

According to the complaint, it was understood that the transportation expenses were to be paid back out of Fenlon's wages.

Fenlon becomes dissatisfied and brought suit under the law whereby non-citizens are not allowed to work in the country without a labor agreement without violation of the immigration laws.

GOLD COMES FROM NORTH. SEATTLE, Oct. 30.—A ton of gold, received from Dawson, Yukon territory, by the steamship Humboldt, which arrived from Skagway, Alaska, last night. CROWN PRINCE OF GERMANY HURT; FALLS FROM HORSE

PRINCE FREDERICK WILLIAM

DANIZE, Oct. 30.—The German Crown Prince, Frederick William, was injured in a hunting accident yesterday near here and is confined to his residence. He was riding with Crown Princess Cecilie when his horse fell. When the prince was picked up he was found to be suffering from injuries to the head and face. His injuries are not regarded as serious.

The Crown Prince, however, will not be able to represent his father, Emperor William, tomorrow at the funeral of Princess Rupprecht, wife of the Bavarian heir presumptive, as had been arranged. His brother, Prince Eitel Friedrich, will take his place at the ceremony.

DEFAMERS OF CARUSO GET HEAVY SENTENCES

MILAN, Oct. 30.—Strenuous oratory throughout the day in the suit of Enrico Caruso against Signorina Giacchetti and others for the defamation of his character had no effect on the judge, who took a severe view of the offense. He sentenced Signorina Giacchetti to one year imprisonment and to pay a fine of \$200. The chief defendant, who superseded Caruso in the affections of Signorina Giacchetti and who was also accused of defamation, was sentenced to thirty months imprisonment and to pay a fine of \$200.

All accused were acquitted of the charge of slander on account of a lack of proof. The terms of imprisonment were reduced three months on account of amnesty, but the prisoners were also condemned to pay the costs of the trial and also the damages, which, however, Caruso will not claim.

LOAN SHARKS FEED ON 100,000 IN GOTHAM

NEW YORK, Oct. 30.—Money lenders in this city do an estimated business of \$20,000,000, more than 100,000 persons, including 30,000 municipal employees, are in their clutches. The State comptroller, William F. Whitney, has been investigating the loan sharks through which money is collected, according to a report made public tonight by investigators for District Attorney Whitman.

The report says that "loan sharks" have been responsible for a great many suicides, divorces and petty crimes. That thousands of employees, private and public, have been made inefficient through mental distress, while scores of big business interests have been discharged upon complaint of lenders—unfairly, the investigators think—instead of co-operating with their employees to eradicate the evil.

TO DEDICATE \$650,000 SHRINERS' HOME TONIGHT

CHICAGO, Oct. 30.—Hednah Temple, the new \$650,000 home of the Chicago Shrine, will be dedicated tonight by William J. Cunningham of Baltimore, Md., Imperial Potentate of the order for North America.

The temple is the largest of its kind in North America. It covers half a block at Cass, Ontario and Ohio streets, and is built of concrete, reinforced with steel and brick interior.

The building cost the local Shriners \$250,000 and the ground on which it stands \$100,000. The structure and the grounds have a seating capacity of 5,000. The stage is 70 feet square, with a proscenium arch 60 feet high.

CATCHES COLD, NOT TRAIN, GETS VERDICT OF \$1500

TORONTO, Ont., Oct. 30.—An odd case was decided at Osgood hall yesterday. When Justice Britton awarded George H. Morrison \$1,500 damages against the Port Huron Railway for medical expenses and loss of salary, resulting from a cold contracted while waiting at Marshfield Crossing, where there is no station. The train was late, and Morrison's cold resulted into an illness of six months.

Justice Britton found that under the Railway act, a railway is liable to be sued if it neglected to provide shelter at crossings where passengers might have to wait for trains.

'PHONE EMPLOYES TO BE PROTECTED

Pension and Accident Insurance Plan Approved by Vail.

BOSTON, Oct. 30.—The directors of the American Telephone have approved a new system of the corporate protection to employees. President Vail and his advisers are convinced that the limit of corporate responsibility to employee does not stop with the pension plan. The objection to a pension plan is that a man has to work all his life to get any benefit under it. President Vail feels that nearer reward of faithful service should be provided.

With this thought in mind, he has secured the approval of his directors to a pension plan, which guarantees the insurance in case of sickness, accident, death or superannuation. The life insurance plan adopted provides, in case of death occurring in and due to performance of work for the company, three years' pay, with a maximum of \$2,000. In case of death outside of the business of the company there is a maximum recovery of \$2,000, with one year's pay if the employee has been ten years in the service of the American Telephone or its allied companies, and less for a shorter period.

In case of sickness, if an employee is earning \$300 or more yearly, he gets full pay for thirteen weeks. An earning less than the \$300 period runs from thirteen weeks to half-pay for thirty-nine weeks, with other time limits, depending upon the period of service. Accident insurance takes care of cases of total and partial disability, period running from thirteen weeks with full pay to half-pay for six years for total disability. Those temporarily disabled are protected until they are able to return to work.

In addition to this insurance protection, the company also provides an elaborate pension plan covering all employees after a certain term of service, with a minimum of \$50 per month. The system, including the Western Electric, has a total of 152,000 employees.

Jackson of the Napa Soda Company, who was injured in an automobile accident at Mayfield, is greatly improved, and the physicians are attending him held out hopes for his recovery. Mr. and Mrs. Jackson, his parents, will arrive in San Francisco Monday, after a tour of the Orient. They will not be informed of their son's mishap until they arrive in port.

JOHN D. INSTALLS 33 PHONES IN HOME

TARRYTOWN, N. Y., Oct. 30.—John D. Rockefeller is having a unique telephone system installed in his million dollar mansion at Pocantico Hills and when it is ready for operation he will have 33 extension lines. It was especially designed for Rockefeller.

It is said no other house has as many telephones as Rockefeller's. They are of special design and fit flush with the wall.

Alongside of each telephone are 33 buttons and Rockefeller has simply to push a button to get into communication with the room he desires. While he is talking the other lines are cut off automatically.

BRAVED DEATH TO GATHER SPECIMENS

The Assistant Curator of Field Museum Returns From Foreign Lands.

CHICAGO, Oct. 30.—Wilfrid H. Osgood, assistant curator of mammals and birds at the Field Museum, returned to Chicago yesterday after nine months in Peru and the Amazon valley, bringing 2000 specimens of fauna. M. P. Anderson of the museum staff remained behind for more fauna. The whole 2000 specimens are new to American collections.

Osgood crossed South America by pack mule, carrier, canoe, steam launch and steamer and found the Andes a sort of pathological poultice—fevers, yellow, scarlet and black—prevailing according to altitude.

"It was no picnic," said Osgood. "On the coast there was bubonic plague, heart failure at 15,000 feet, beriberi at Iquitos, and yellow fever, black water fever and malaria of various shades all the way down."

"At night the vampires sucked blood from the mules till the mules nearly died from weakness. Our own toes were never safe."

"On the Amazon we shared our steamers with 400 Indians, weighing 400 pounds apiece. I used to awake in my hammock and wonder if any of them was loose in the dark. But it paid after all. We brought back, among other things, humming birds, seven and one-half inches long, and the head of a spectacled bear—black with white marks resembling eyeglasses."

BRINGS RARE SPECIMENS FROM SIBERIAN HUNT

SAN FRANCISCO, Oct. 30.—Bringing a number of rare specimens, which he will turn over to the Smithsonian Institution, George M. Miller, an electrical engineer of Boston and an amateur naturalist, arrived here yesterday on the liner Manchuria. His collection includes two bearskins, a number of fish, a Baikal seal, some small mammals and a few specimens of flowers found in Siberia.

"I hunted for several weeks in the mountains and around Lake Baikal in Siberia," said Miller, who modestly states that he is only an amateur in the wilderness.

DOG IS IMPORTANT AS POLITICAL ISSUE

CHICAGO, Oct. 30.—Charles F. Gunther, former city treasurer and later an alderman, in a plea against the muzzling of dogs before the city council health committee last night, declared that the canine was an issue could elect or defeat any man seeking a municipal office.

"You underestimate the value and the love of a dog," he said. "When one is taken as a puppy and raised by a family becomes a member of the family. You want to muzzle the youngsters and not the dogs, for the children chase and tease them until it is no wonder they bite. Robbers will run riot in Chicago if you don't take action to muzzle the dogs."

The committee approved a plan which provides that every dog on the street shall wear not a license tag and a muzzle separately, but a muzzle upon which is affixed a plate bearing the license number.

'SYRUP OF FIGS' FOR INDIGESTION, BILIOUSNESS AND CONSTIPATION

Better Than Castor Oil, Calomel or Cathartics to Cleanse Your Stomach, Liver and 30 Feet of Bowels; Harmless Laxative for Men, Women and Children.

Primitive folks did not need laxatives. They lived outdoors, ate plenty of fruit, and all of their food was coarse. We modern people are different. We exercise too little, eat little fruit, and our food is too fine—too rich.

We simply can't have our ten yards of bowels clogged up, liver choked with sour bile and stomach full of foul effete matter and feel well. It means that the food and waste retained in the stomach and thirty feet of bowels ferment—decay. The decay breeds poisons, gases and acids, and those poisons are sucked into the blood through the very ducts intended to suck in the nutriment. Then we get sick headaches, become dull, bilious, tongue coated, nervous, mealy don't digest and we feel miserable all the time. So we must make our choice.

We must live like primitive folks, else we must take artificial means to move the excess bile and waste matter on and out of the system.

The safest, most harmless and effective stomach, liver and bowel cleanser and regulator of men, women and children—is delicious Syrup of Figs, which doesn't irritate, gripe or weaken. Its effect is the effect of fruits. It is composed entirely of fruit juices, figs, senna and aromatics. Don't think you are drugging yourself. Syrup of Figs can be constantly used without harm.

Ask your druggist for "Syrup of Figs" and Ellinger's "Senna" and see on the label that it is prepared by The California Fig Syrup Company. This is the only genuine—the old reliable. Refuse, with contempt, the so-called Fig Syrup imitations some—times offered to deceive you.

WRECK AT SAN JOSE BLOCKS COAST LINE

SAN JOSE, Oct. 30.—Traffic over the Southern Pacific Company's coast line was delayed two hours last night, and Engineer E. Thompson, in charge of a switch engine, was badly cut in the face by flying glass as the result of a head-on collision at Third and Julian streets, just outside the local yards. The accident is said to have been due to the failure of the block signals to set themselves properly until the trains were almost together.

The switch engine, which was transferring the 6 o'clock passenger train empty into another section of the yards, had almost stopped, and the freight train from Los Angeles was slowing down when the crash came. The baggage car back of the switch engine was wrecked, and it was two hours before the tracks could be cleared. The train carrying San Francisco passengers from here at 6:20 o'clock was delayed during this time and trains for the south were held up. Thompson is not seriously hurt.

AT 81 WILL CAST FIRST VOTE FOR PRESIDENT

WASHINGTON, Oct. 30.—Albert G. Hall, after 51 years of observation of political changes, will cast on Tuesday his first vote for a president of the United States.

With his twin brother, Hall has lived in the District of Columbia, almost continuously since he attained his majority. Two years ago he acquired a farm in Pennsylvania and established a legal and real estate business. His first vote was made by the octogenarian himself today, on the occasion of the celebration of his and his brother's eighty-first birthday anniversary.

Every Good Judge of Tobacco Likes Tuxedo
The reasons for Tuxedo's overwhelming popularity lie in its absolute superiority.
Thereasons for its superiority are (1st) that it is made from only the choicest selected leaves of perfectly aged Burley tobacco, and (2nd) the famous "Tuxedo process," which eliminates every fault in tobacco, yet retains all its virtues.
Tuxedo was invented by a famous doctor who loved to smoke a pipe, but couldn't smoke any tobacco then on the market without irritating his throat. So, by exhaustive scientific experiments extending over many years, succeeded in perfecting a method of making the most delightful pipe tobacco absolutely harmless and non-irritable to the delicate membranes of the mouth and throat.
Scores of imitators have tried their best to imitate Tuxedo. The laboratories of the world have been working years to discover the secret of the process. They haven't succeeded yet!
An imitation is never as good as what it imitates. Tuxedo is the ultimate smoke of every man who appreciates quality.

AARON CHALFANT DIES IN FRUITVALE

California Pioneer Passes Very Suddenly at His Home.

FRUITVALE, Oct. 30.—Aaro Chaffant, one of California's earliest pioneers and a former civil engineer of statewide prominence, died suddenly of heart disease at his home, 3122 Fruitvale avenue, at 8 o'clock last evening. Chaffant, who had been ill for several years with heart trouble, was taken with heart trouble Monday morning and died at that evening his condition was critical. Yesterday, however, he was up and about as usual and complained of no marked indisposition until his sudden death.

Aaron Chalfant was born in New London, Chester county, Pa., January 26, 1838, coming to California in his early youth in the early fifties, and settling in Mendocino county. He was married in Mendocino in 1857 to Mary Smith Philbrick. Here for a number of years he followed an active career in his chosen profession, supervising the construction of some of the most important public buildings and dwellings in Mendocino and Tuolumne counties.

Following the fire in 1906 he came to Oakland with his family from Tuolumne county, settling in Fruitvale himself building the home in which he died. Soon after his arrival here he was forced to retire from his ac-

Sustain the New Registration Law.

The Alameda Tax Association has made the mistake of recommending the defeat of the registration law passed at the last session of the Legislature, but which has been referred to the approval of the electorate by petitions gotten up by County Clerk Jack Cook and his political allies throughout the State.

The law applies solely to Alameda county and was enacted at the instance of the entire legislative delegation from this county. It was designed to take the registration of voters out of the domain of machine politics and to separate it from all other county business; also to correct some grave abuses which have become unpleasantly pronounced during Cook's term of office. It was an effort to purify politics by cleansing the fountain, yet the Tax Association, while confessing that the registration as at present conducted is "tainted and disgracefully inefficient," declares that the remedy does not cure any of the existing evils.

Apparently the association does not realize that the stream of politics cannot flow pure from a corrupted source, and that the best guarantee for clean and honest government is a registration fairly and honestly made. It is not fairly and honestly made now. Jack Cook and his deputies have conducted the registration in the way that would best serve their political ends. Says the Tax Association:

"Registration as conducted under the existing laws is tainted with political activity, is disgracefully inefficient, and needs complete reorganization. Until some measure is passed by the Legislature correcting completely existing conditions, the Tax Association recommends that the present method of registration be continued rather than substitute a law or laws that in nowise better the present system and in reality increases the cost in the one county actually affected by the operation of the proposed plan."

Here are two vital mistakes. The remedy proposed is not ineffective, and the cost it will entail will not be appreciably greater than it is now. Admitting an evil, the Tax Association offers a theory instead of a remedy. It presents baseless conclusions to justify the rejection of a proposed remedy. It proposes a radical change in the whole system of registration as a reason for refusing to correct at once a flagrant abuse that is corrupting the politics of Alameda county. It finds fault with the remedy because it does not apply to the whole State. San Francisco applied a remedy without waiting for action on the part of other counties.

At the last regular session of the Legislature Cook petitioned that body for more help. The cost of registering 90,000 voters under the law will only be about \$50 a year more than Cook declared it would cost to register 60,000. The figures he supplied the Tax Association are flatly contradicted by the figures he presented to the Legislature. He has pulled the wool over the eyes of the Tax Association, and if he can befooled the voters of the State he will appear before the Legislature with a fresh demand ostensibly to pay the increased cost of registration. He will say his office force is insufficient to register the voters and ask for more deputies. If they are granted he will have more patronage, more places in his office for political workers.

The law which Cook asks the voters of the State to repeal is approved by the people of Alameda county. It applies to this county alone, and the wishes of the people of this county should prevail. The bill was passed in deference to their wishes. On this point the San Diego Sun takes the correct position in this editorial comment:

"Under the same caption are two other referendum petition measures to alter the political code concerning the office of Registrar of Voters. This bill was passed by the Legislature in its last special session, but under a referendum petition engineered by County Clerk John P. Cook of Alameda county has been prevented from becoming a law unless ratified by the voters. As all except Mr. Cook and his friends seem to think the change in the political code would be advisable, the change will probably be made."

The law should be approved because it is a good law and will effect a needed reform. Approving the act of the Legislature will place no obstacle in the way of the general change in the registration system that the Tax Association suggests as advisable. Every elector who wants a clean register and honest elections will vote yes on the registration proposition.

"How to apportion \$100 a month" is the caption of a magazine article. How to get \$100 a month is the problem that a great many would like to solve before tackling the comparatively easy one of spending it.

Playing the Gold Brick Game.

Mr. Leslie Burks, secretary of the Greater San Francisco Association, is a very accommodating person; also a most impudent and unscrupulous one. He promises the municipal employees of the city of Oakland an increase of wages if they will vote for annexation.

His promise is as good as Stitt Wilson's promise to abolish poverty if the voters of the Sixth district will elect him to Congress. A liar can afford to be liberal in proportion to the opulence of his imagination.

Heretofore Mr. Burks has promised property-owners that he will reduce their taxes if they will vote for annexation. He has also pledged his pure and unvarnished word that Oakland property will not be taxed to pay the huge debt already incurred by San Francisco.

These promises and pledges are irredeemable currency, coined from the base metal of gold bricks. They are counterfeit money flashed to deceive suckers. They are the sort of bills contained in the "roll" of the confidence man and the three-card monte sharp.

Mr. Burks' personal guaranty so far from being a security is a distinct liability. It is offered as a delusion and a snare. It is worthless at best, and in this instance is given to purposely delude. His appeal to credulity and cupidity is as dishonest as it is artful. The gold brick merchant peddles his wares with just such appeals.

The suspension of the death sentence by Acting Governor Wallace has been followed by a series of murders and murderous assaults all over the State. With the Governor standing between them and the gallows and the benefits of the parole law open to them, the man-killers have no compunction about taking life. If they can escape the vengeance of mobs they are secure from the hangman's noose.

NO REST

GOVERNOR WILSON—Goodness! What's the hurry? —N. Y. TRIBUNE.

The War in the Balkans.

The war in the Balkans is real war. It has been bloody fighting from the start, with the Bulgars, Serbs and Montenegrins on the aggressive. When the Greeks entered the game they took the offensive by invading Turkish territory and storming a strongly fortified fortress. They are doing much better fighting than they did in the last war with Turkey. At every point of collision the Turks have been bested, although they have made desperate resistance. They have been steadily pushed back, losing guns and military stores as well as fortified positions in the battles along the frontier.

The heaviest fighting has fallen to the Bulgars, and their successes have been won by sheer pluck and bulldog pertinacity. They have been compelled to march and fight in the mud and rain, and go up against fortifications manned by a stubborn foe. They have operated in larger masses than the Serbs and Montenegrins and have encountered larger armies because the line of their advance is on the direct road to Constantinople. And it has been hard fighting every foot of the way, as the losses on both sides abundantly prove.

Yet the martial ardor of the Bulgars has not abated. Neither fatigue nor hardship has stayed their advance. They have got the Turk on the run and they propose to keep him on the run. Having already driven him from the strong line of frontier fortifications, they are evidently making a grand effort to end the war before the Turkish reserves come up from Asia. The speedy capture of Adrianople and Scutari would probably bring the war to an early conclusion, which accounts for the desperate efforts to capture those strongholds. Adrianople and Scutari are bases of supplies for troops threatening the frontiers of Bulgaria, Serbia and Montenegro, and their reduction would compel a retirement of the Turkish forces all along the line and leave the allies free to continue their advance—the Bulgars toward Constantinople and the Serbs and Montenegrins toward Salonica and the Egean Sea.

While the advantage is all with the allies to date, it will imperil their chance of ultimate victory if they give the Turk an opportunity to breathe and collect reinforcements. In a long struggle superior numbers will tell, and if the Turkish reservists from Asia are given time to reach the seat of war, the allies will find themselves confronted by larger armies composed in the main of fresh troops imbued with the spirit of fanaticism that has always made Turkish soldiers formidable.

But it has been a pretty fight as far as it has gone. Not even in the Franco-Prussian war did armies move with more celerity or come to blows more quickly, nor continue the fighting more incessantly. The allies are pursuing the tactics of General Grant—marching on the foe from every direction and fighting him wherever they find him. It is war at an exhausting pace, but its sanguinary character is the best assurance that it cannot long continue—that is, if the great powers are not drawn into it, which God forbid.

Registrar Zemansky announces that the register of San Francisco is stuffed with 20,000 fraudulent names. Of course; San Francisco is preparing to carry the annexation amendment by the methods that have made the politics of that city a stench throughout the State. If the annexation amendment can be carried by stuffing and colonization, consolidation will be carried by the same means. Alameda county will be invaded by thousands of people from San Francisco who will take up their residence here just long enough to vote for annexation. They will come over here in swarms with no other object than to vote away the liberties of this city.

There the two Indians saw three men arising in the distance. Fearing that they would be starving to death, the two Indians went back to the commander and reported having seen nothing. The trip home was made. The Indian said he believed the men were those of one of the Franklin ships.

How the annexation and registrar of voters amendments appear on the ballot. Notice that the annexation amendment is sixth in the list. Do not be misled by amendment Three, which heads the list.

Amendment Providing for Registrar Should Receive Support of Alameda Voters

There is grave danger that the anti-annexation amendment as it will appear on the November ballot will be confused in the minds of the voters with Senate Constitutional Amendment No. 3, which will appear first in the list of amendments to be voted upon, and which HAS NO BEARING ON THE QUESTION OF CONSOLIDATION.

Senate Constitutional Amendment No. 3 relates to the methods of handling county funds and irrigation district bonds. WHAT HAS HERETOFORE BEEN DESIGNATED AS CONSTITUTIONAL AMENDMENT NO. 3, THE ANNEXATION CONSPIRACY, IS BURIED WITHOUT HEADING OR DESIGNATION, AS THE SIXTH AMENDMENT ON THE LIST.

It will be necessary for the voters of the State of California to exercise particular care and attention to see that in voting down the annexation or consolidation amendment they stamp a cross in the "No" space opposite the sixth amendment.

The danger of misunderstanding became known when pamphlets were received from Secretary of State Frank C. Jordan, containing a list of amendments to the constitution, the arguments for and against, and a reproduction how they will appear on the November ballot.

Alameda county is vitally interested in the proposed amendment, referred to the electors of the State by referendum petition, providing for the appointment of a registrar of voters in each county. The measure is regarded by those whose opinions are unquestioned, as being in the interest of good government.

BREATHING SPELL IS GIVEN GEN. SICKLES

NEW YORK, Oct. 30.—Sheriff Harburger signed an order yesterday, adjourning the sale of the personal effects of General Daniel E. Sickles on a judgment obtained by the Bank of the Metropolis, from November 1 to November 14. The sheriff granted an adjournment in spite of the protest of the bank, which insisted that the sale should be held on the day set, unless the judgment was settled. Mrs. Sickles and her son, Stanton, and the sheriff today said that they expected to be able to make some arrangement to take care of the judgment, but needed until the 14th to do it. It was upon their plea that the sale was postponed.

BEST \$5 HE EVER SPENT

Bristol, Pa., Man Says So In This Letter.

Months of suffering and anxiety over his condition caused Mr. A. L. Kennedy of Bristol, Pa., to write this letter. He says: "Grippe and a bad cough caused me much suffering and worry for five long months. But then I all over now, for I have taken Vinol and am perfectly well. I took five bottles and it was the best five dollars I ever spent."

In health one cannot realize how depressed a person may become after trying one remedy after another for such a condition as Mr. Kennedy was in, without benefit, or what a relief it is to find help and be returned to health and strength.

It is the combined action of the medicinal elements of cod liver oil without the greasy oil, aided by the blood-making and strength-giving properties of tonic iron, that makes Vinol so effective in eradicating chronic coughs, colds and bronchitis at the same time building up the weakened, run-down system.

We guarantee Vinol to give you perfect satisfaction.

TROUBLES PILE UP FOR BLACK

Senator Is Again Indicted and
Foreclosure Stares Him
in Face.

SAN JOSE, Oct. 30.—The grand jury returned its second indictment against Senator Marshall Black, charging him with appropriating \$300 of the funds of the Palo Alto Mining, Lumber and Loan Association for his personal use. Black will be arraigned on November 1.

FORECLOSURE HITS BLACK.
REDAWOOD CITY, Oct. 30.—A suit to foreclose a mortgage of \$11,500 on a tract of land in Redwood was instituted yesterday by the First National Bank of Redwood City against Marshall Black, who is now in jail on indictment for appropriating funds of the Palo Alto Mining, Lumber and Loan Association for his personal use.

Black issued a promissory note last May for \$11,500. He agreed to pay \$250 of the amount on October 1 last. His failure to live up to this agreement brought on the suit.

RECALL PETITIONS READY.
SACRAMENTO, Oct. 30.—Secretary of State Jordan received a telegram yesterday from R. L. Green, chairman of the recall committee at San Jose, saying that the recall petitions for the recall of Marshall Black, State Senator, would be forwarded at once by the County Clerk, Green says.

"I respectfully request that you officially notify the Governor with the least possible delay so that Black's successor may take his seat at the opening session of the next Legislature."

Statistician Green says that the recall election must be held not less than sixty days after the election, but not more than eighty days after the election, are filed.

MEXICO TO SEND EXHIBIT TO FAIR

The Exposition Headquarters
Visited by Distinguished
Citizens.

SAN FRANCISCO, Oct. 30.—Senator Ignacio Vialas, secretary of the department of agriculture of Mexico City, and Senator Ignacio Escobar, of Jalisco, president of the Mexican Agricultural college and director of dairy farming experiments, who have established several demonstration farms in Northern Mexico, called on the exposition headquarters yesterday, accompanied by Consul-General A. L. Grayson of Mexico.

The distinguished visitors recently attended the International Agricultural Congress held at Lehigh, Pa., and reached this city yesterday.

They were taken over the exposition site by Theodore Harker of the exposition staff and Alpheus Lyon, editor of Orchard and Farm. Marshall K. Holt was also in the party.

The visitors intend to have charge of collecting the agricultural exhibit which Mexico is to make at the 1915 universal exposition. They are members of the Agricultural college of Mexico and have been prominently identified with Mexico's exhibits at previous international exhibitions.

They declared their intention of urging the Mexican government to select a site for Mexico's building as soon as possible. They will also advise a magnificent agricultural exhibit and are going to make a specialty of Mexican agriculture at the coming world exposition.

"Mexico's exhibit at your exposition will show the wonderful resources of that country," said Senator Vialas. "I very strongly believe in the agricultural possibilities of my country and believe that the future of Mexico lies in the development of agriculture."

**RICH HUMAN CARGO
COMES ON BIG LINER**

NEW YORK, Oct. 30.—With her first cabin full of celebrities, whose combined fortunes aggregate more than \$100,000,000, the Kronprinzessin Cecilie arrived here late yesterday from Bremen. Her passenger list looked like a page torn from the Blue Book. At a smoking room conference held last Sunday night 65 of the women passengers were found among the smart set.

Among the passengers were Mr. and Mrs. William G. Brewster, Henry Clews, William Funk, Commodore Elbridge Gerry, Mrs. Isaac Guggenheim, Lady Otto S. Loeb, Henry Knickerbocker, Winfield Scott Hoyt, Mrs. Jewel Bathe and Mrs. Lewis Gillespie.

Putnam Griswold, the Metropolitan basso, and a resident of California, was another passenger. He said that the best friend the American musical aspirant had was the Kaiser. "He is greatly interested in everything American," said the basso, "particularly Americans who have musical aspirations, and is helping them wonderfully."

**GIRL ACCUSER CLEARS
CONVICT OF CRIME**

LOS ANGELES, Oct. 30.—George Prunzell, who was sent to San Quentin prison in July 1909 to serve a sentence of fourteen years for alleged assault on Elsie Prunzell, his niece, was innocent of the crime, according to the jury, and an effort is being made to secure his release.

The girl, who is 16 years old, was the complaining witness in the superior court yesterday against Tom Ling Ning, a Chinese boy, charged with a similar offense. Under a rigid cross-examination she broke down and admitted that she had testified falsely against her uncle and asserted his innocence.

Because of the girl's admission the jury in the Ning case refused to consider her testimony and immediately acquitted the defendant.

Travelers Don't Fear Strange
Dishes; Stuart's Dyspepsia
Tablets Enable the Stomach
to Stand Anything.

A Box of Stuart's Dyspepsia Tablets Is
Your Best Traveling Companion.

"Railroads tell you about the wonders of Nature along their lines; hotels describe their modern accommodations; but they never fail to ring in their 'culinary excellence.' The wise traveler knows he is taking 'hot' luck when he leaves home, hence a box of Stuart's Dyspepsia Tablets is quite as essential as many of the other traveling requisites."

Thus commented a philosophical traveling man, speaking of hotel food, restaurants, grills and junction lunch counters. "The agitations in this world," he continued, "are the result of one set of men trying to compel the other set to think and act against their own inclinations. It is the same in religion, politics and wars. I have learned from experience to eat what they serve; to forget the food experts, read the current news and jokes and leave the stomach to the best expert in the world—Stuart's Dyspepsia Tablets."

And Stuart's Dyspepsia Tablets actually do the work assigned them. They relieve weak and overburdened stomachs of a great portion of digestive action. Their component parts assist the digestive fluids and secretions of the stomach and they simply take up the grind and carry on the work just the same as a good, healthy stomach would do it.

Stuart's Dyspepsia Tablets are for sale by all druggists, at 10 cents a box, and they are the article that the traveler does not try to sell something in the place of it that's "just as good." Their unqualified merit and success and the universal demand for them has placed them within the reach of everyone.

the national joy smoke

It makes a royal cigarette. It's good for what ails you to switch from the dust-brands that burn up like powder—and go at "P. A." For here's freshness and sweetness—and long-burning, too! It's easy to roll "P. A." because it's crimp cut and stays put! You'll never know how much better a "home-rolled" cigarette can be until you roll up and hook a match to "P. A."

**WOODLAND FIREBUG
SETS WAREHOUSES**

WOODLAND, Oct. 30.—Woodland is harboring a fire fiend. By mere chance, three fires, the total losses from which would have aggregated \$30,000, were prevented here yesterday.

A blaze which threatened to destroy the big Ogden warehouse west of the depot was quenched by the arrival of a squad of men who happened to be waiting at the depot for the evening train. A similar blaze was put out by a train crew at Merrill's warehouse, four miles south of the Ogden warehouse.

Later the appearance of a charred door and burned matches at the Boyle & Commins warehouse indicated that the pyromaniac also had operated here some time during the evening.

**FATAL FALL FOLLOWS
PREDICTION OF DEATH**

CHICO, Oct. 30.—Within half an hour after remarking that he supposed he would die soon, John Morton, an aged workman, fell on the cement sidewalk here and expired from his injuries.

Morton paid his bill at a hotel and jokingly remarked to the proprietor, "If I do die I want you to see that I am properly buried."

Morton slipped out and while passing the Park Hotel slipped on the wet pavement, striking on his head. He was hurried unconscious to the Receiving hospital and died before a physician arrived.

**OAKLAND ICE GIVEN
CLEAN HEALTH BILL**

SACRAMENTO, Oct. 30.—A favorable report of analysis made of samples of ice sold by three companies in San Francisco and three companies in Oakland by M. E. Jaffa, director of the state pure food and drug laboratory at the University of California, was received yesterday by the state board of health.

The analyses were made on account of inquiries received by the state board of health raising the question as to whether the ice used for drinking purposes was free from typhoid bacilli.

Dr. Jaffa reported that the samples had been taken at random and that the results of the investigation show that there is no danger of infection from using the ice.

**"SMUGGLER QUEEN"
RELEASED BY COURT**

LOS ANGELES, Oct. 30.—Mrs. Mildred Hall, known here as the "Smuggler Queen," was released yesterday from the county jail, where she had been awaiting trial in the United States court for nearly a year.

Mrs. Hall, on being taken before Federal Judge Olin Wellborn, entered a plea of guilty to one of the indictments against her. A fine of \$10 was imposed and on the other indictments the woman was released upon her own recognizance.

The action of Judge Wellborn was taken because of the ill health of the young woman. She is said to have been the directing genius of one of the greatest smuggling rings that ever has operated in Southern California.

LOS ANGELES, Oct. 30.—The federal grand jury has returned indictments against Ernest W. Schreder, Fred E. Green and Fred C. Bennett, clerks in the postoffice at San Diego, charged with having detained mail.

The accusation against the trio grew out of the alleged tampering with letters mailed by postoffice inspectors to United States Senator Works, Congressman Smith and the Postmaster-General, recommending the re-appointment of Postmaster Bartholomew at San Diego.

ECZEMA

Also Called Itchy, Salt Rheum, Pruritus, Milk Crust, Weeping Skin, etc.

ECZEMA CAN BE CURED TO STAY, and when I say cured, I mean just what I say—CURED. I have cured more eczema than I can return more than before. Remember I make this broad statement after putting ten years of my time on this one disease and handling in the meantime a quarter of a million cases of this dreadful disease. Now, I do not care what all you have used, nor how many doctors have told you that you could not be cured—all I ask is just a chance to show you that I know what I am talking about. If you will write me TODAY, I will send you a FREE TRIAL of my mild, soothing, guaranteed cure that will comfort you more in a day than anyone else could in a month's time. If you are disgusted and discouraged, I dare you to give me a chance to prove my claims. By writing me today you will enjoy more real comfort than you had ever thought this world held for you. Just try it and you will see. I am telling you the truth.

ALAMEDA BRIDE IS
NATIVE OF TURKEY

ALAMEDA, Oct. 30.—Lucian C. A. Morcel, a Miss Ernestine Marcovitch were married yesterday by Judge H. B. Eppan. Having a large family, the young couple left on their honeymoon trip. The bride is a native of Turkey. Her country's war with the Balkan allies was not sufficient cause to interfere with her local plans. Morcel is a son of the late Joseph Morcel. After his father's death young Morcel continued the bitter struggle in court for the estate of Mrs. Therese Berthold, the reputed wife of the elder Morcel, whose estate was valued at \$100,000. SACRAMENTO TO

BID FOR BUSINESS

Campaign Launched to Bring
Back All State Offices to
Capital.SACRAMENTO, Oct. 30.—The city of
Sacramento launched a campaign this
morning to bring back to Sacramento all
the State offices now located at San
Francisco and other parts of the State.
The action came with the filing of a re-
port of the special commission named by
the last legislature to investigate the
need of a new State Library and Court
building. It was decided to go before
the coming session of the legislature with
a proposition whereby two additional
blocks of land adjacent the present cap-
itol site are to be purchased by the city
of Sacramento to pay one-half the purchase
price and the State the other half.On this land it is proposed to erect two
new buildings, one for the splendid State
Library collection and the other for the
courts. The commission, consisting of
the judges of the Third District Court of
Appeals and the State Library Trustees,
endorsed the project and a committee of
Sacramento citizens promised that the
city would do this share.SACRAMENTO, Oct. 30.—A crowd of
about 1000 people gathered at the capitol
this morning to witness the opening of
the new State Library and Court build-
ing. The ceremony was held in the fore-
noon and the new building was opened
to the public.The new building is a fine structure
of redwood and is located on the corner
of 14th and Broadway streets. It is a
two-story building and is very modern
in design. The building is owned by
